

MATERIAL SAFETY DATA SHEET

IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Company: Compliant Cleaning Supplies
Address: 23 Norman St, Ascot, QLD, 4007
Phone: 3868 2609 Fax: 3630 1523
Emergency Telephone Number: Poisons Information Centre 131126

Product Name: RINSE AID

Other Names: None
Manufacturer's Product Code: glim
Recommended Use: Liquid Rinse Aid

HAZARDS IDENTIFICATION

**CLASSIFIED AS NON HAZARDOUS ACCORDING TO CRITERIA OF WORKSAFE AUSTRALIA
NOT DANGEROUS ACCORDING TO THE CRITERIA OF THE ADG CODE FOR TRANSPORT.**

Risk Phrases: None

Safety Phrases: .S 2 - 21 - 45

COMPOSITION / INFORMATION ON INGREDIENTS

INGREDIENTS

<i>Chemical Entity</i>	<i>CAS Number</i>	<i>Proportion (%)</i>
Industrial Methylated Spirits	64-17-5	<10%
Surfactants	various	< 10
Ingredients determined not to be hazardous		To 100

FIRST AID MEASURES

FIRST AID TREATMENT

Swallowed: If swallowed, **DO NOT** induce vomiting. Give a glass of water to drink and seek medical advice.

Eye: If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

Skin: If skin contact occurs, remove contaminated clothing and wash skin thoroughly. Wash clothing before reuse.

Inhaled: Remove victim from exposure if safe to do so. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume a comfortable position and keep warm. Seek medical assistance if symptoms persist.

First Aid facilities: Potable water should be available to rinse eyes or skin. Provide eye baths and safety showers.

Advice to Doctor: Treat symptomatically and as for exposure to alcohols.

Additional Information: None available.

FIRE FIGHTING MEASURES

Fire/Explosion Hazard: Fire fighters to wear self-contained breathing apparatus in the event of a fire. Burning can produce carbon dioxide and/or carbon monoxide. Heating can cause expansion or decomposition leading to violent rupture of containers. Keep containers cool with water spray. May form flammable vapour mixtures with air. Avoid all ignition sources. Flameproof equipment necessary in area where this chemical is being used. Nearby equipment must be earthed. Vapour may travel a considerable distance to source of ignition and flash back. Use foam water fog, or fine spray mist to extinguish.

Additional Information:

ACCIDENTAL RELEASE MEASURES

Spills and Disposal: Remove non-essential personnel from the area and eliminate all sources of ignition. Ensure that any products of incompatible classes near the spill are removed. Dam and recover. Prevent entry into drainage systems, sewers and waterways. Collect with inert absorbent material such as sand or earth. Consult Local Authority on disposal.

Product: RINSE AID

HANDLING AND STORAGE

Precautions for Safe Handling and Storage: Classified hazardous for storage. Store in tightly closed containers in cool, dry, isolated well ventilated areas away from heat, sources of ignition and incompatibles. If transfer to another container becomes necessary, ensure that the container is clearly labelled, the container is of a type suitable for the product, and is clean and free of other materials. Do not eat, drink or smoke in contaminated areas. Before eating, drinking or smoking, remove contaminated clothing and wash hands. All electrical equipment, including lighting, used in proximity to storage of this product, and all electrical process equipment used in any process involving alcohol should be selected and installed in accordance with local wiring regulations and the applicable Australian Standards.

Dispensing: Always use clean and dry equipment to dispense the product. Dispensers should be cleaned before and after use. All dispensers should be washed out after use.

EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Standards: There are no exposure standards available for this product. ASCC / HSIS have set an exposure standard of 1000ppm (TWA) for the component Ethanol.

Personal Protective Equipment: Use sensible work practices that reduce operator exposure to the product. Protective clothing and equipment should be worn. Respiratory protection should be used if there is a risk of exposure to high vapour concentrations. Respirators should comply with AS1716 or an equivalent approved by a state/territory authority.

Engineering Controls: Ensure that adequate ventilation is provided. Local exhaust and or mechanical (general) exhaust are recommended, provided these are fitted with flame and explosion proof electrical fittings. Maintain air concentrations below recommended exposure standards. Avoid generating and inhaling mists. Keep containers closed when not in use.

IDENTIFICATION

PHYSICAL DESCRIPTION / CHEMICAL PROPERTIES

Appearance	Blue liquid
Odour	Solvent odour
Boiling Point (°C):	Approximately 95
Vapour Pressure (mmHg @ 20°C):	Not measured
Specific Gravity (g/ml @ 25°C):	0.990 – 0.995
Flashpoint (°C):	Approximately 46 deg C
Flammability Limits (%):	Non flammable
Solubility in Water	Miscible with water
pH:	2.0 – 2.5

STABILITY AND REACTIVITY

Reactivity Hazards: Do not store near high heat sources or strong oxidising agents.

TOXICOLOGICAL INFORMATION

HEALTH EFFECTS

Acute:

Swallowed: May cause irritation, nausea, headache, dizziness and symptoms of depression of the central nervous system.

Eye: May cause moderate irritation and reddening.

Skin: Prolonged contact may cause minor irritation and have a degreasing action on the skin.

Inhaled: Vapour may be irritating to mucous membranes and the respiratory tract. Inhalation of vapour can result in headaches, dizziness and possible nausea. Inhalation of high concentrations can produce central nervous system depression, which can lead to loss of co-ordination, impaired judgement and, if exposure is prolonged, unconsciousness.

Chronic: Repeated or prolonged skin contact may lead to irritant contact dermatitis.

FIRST AID:

Swallowed: If swallowed, **DO NOT** induce vomiting. Give a glass of water to drink and seek medical advice.

Eye: If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor urgently.

Skin: If skin contact occurs, remove contaminated clothing and wash skin thoroughly. Wash clothing before reuse.

Inhaled: Remove victim from exposure if safe to do so. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume a comfortable position and keep warm. Seek medical assistance if symptoms persist.

Product: RINSE AID

ECOLOGICAL INFORMATION

Ecotoxicity: Concentrated product not considered harmful to environment, dispose of carefully..

DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure waste disposal conforms to local waste disposal regulations.

TRANSPORT INFORMATION

UN Number:	None Allocated	Proper Shipping Name:	None Allocated
Class:	None Allocated	Subsidiary Risk:	None Allocated
Packing Group:	ne Allocated	Hazchem Code:	None Allocated

REGULATORY INFORMATION

Poisons Schedule: None allocated

Hazardous substances

S 2 Keep out of the Reach of Children
S 21 When using do not smoke
S 45 In case of accident or if you feel unwell, seek
medical advice immediately [show the label
when ever possible].
